WELCOME TO FLOWCRETE - for the world at your feet

Flowcrete's commitment to exceptional design, technical support and advisory services, from initial enquiry through to installation, is at the heart of our business philosophy.

Our global success is driven by our commitment to excellence; excellence in products, excellence in service and excellence in people.

With manufacturing plants across Europe, the Americas, Asia and Africa, a global commercial and sales support team and the backing of a major multi-national manufacturing group, Flowcrete is well placed, as the world's leading performance flooring designer and manufacturer, to serve clients in their local markets.

Our fully trained and monitored global network of approved flooring contractors ensures your flooring project is in safe hands with Flowcrete.

FLOWSPORT - flexible sports flooring

FlowSport is a multi-ball sport floor surface and the winning choice of flooring solutions for multi-use fitness and indoor sporting environments; cushioned underfoot for that extra spring in your step.

The resilient and flexible floor covering is available in an attractive range of bright colours. What's more, demarcation lines and recognisable markings can also be applied to create a full outline for a variety of sports activities. The ball really is in your court when it comes to design!

The FlowSport system contains up to 60% recycled material, including rubber crumb from end-of-life tyres, making it an ideal sporting surface for sustainable new-build or refurbishment projects.

FlowSport is hard wearing, with exceptional abrasion and impact resistance... perfectly suited to roll-with-the-punches in environments subject to fast-paced sporting activities. What's more, its seamless finish means it is easy to clean and maintain, making it an ideal choice for nurseries and schools where health and hygiene are key.

TOP tip

Use FlowSport in school and nursery environments, for an easily-cleaned and maintained sporting surface.

FLOWSPORT

a sporting great

FLOWSPORT provides a bright, fun and practical solution to indoor sporting environments. With its cushioned finish for that extra hop, skip and jump, this flooring solution really does have the winning combination.

TOP tip

Add various coloured demarcation lines to create a series of pitches and zones in one area.

Queens Hall, Holywood, Northern Ireland.

DELIVERING

the winning combination

A composite surface that offers a cushioned effect for a spring in your step. Go for gold... choose FlowSport for your sporting environment.

Flooring surfaces in sporting environments are subject to frequent and heavy-weight impact, including everything from fast-paced team sports through to bulky gym equipment. FlowSport has been specially formulated to hold up to the needs of sporting environments, while offering a hat-trick of hygiene, safety and visual appeal.

The seamless and joint-free finish of FlowSport minimises the build up of dirt and bacteria in unsightly cracks and crevices, while at the same time offering an easy-to-clean solution.

The system's cushioned effect takes impact and slips, trips and falls in its stride, making the solution ideal for rough and tumble sports halls, as well as aerobics studios, fitness suites and yoga studios.

FlowSport delivers visual impact, with its range of attractive colours. This range can also be used to zone various areas in leisure centres and fitness suites.

Belvoir Sports Hall, UK.

Belfast Boys' Model School, Northern Ireland.

TOP tip

FlowSport can contain up to 60% recycled material including rubber crumb from old tyres.

FLOWSPORT benefits

FlowSport offers a wide range of benefits for sporting environments in need of a flooring solution that is safe, durable and attractive.

SAFE - FlowSport provides a unique cushioned effect underfoot that takes impact as well as slips, trips and falls in its stride, ensuring the safety of visitors and staff.

ATTRACTIVE - FlowSport is available in a range of bright colours, alongside complimentary line marking and signage, putting the ball in your court when it comes to design choices!

DURABLE - FlowSport includes a resilient and flexible top coat that has excellent abrasion and impact resistance, making it an ideal choice where durability is a key requirement.

ENVIRONMENTAL - FlowSport contains up to 60% recycled material, including rubber crumb from end-of-life tyres, making it an ideal choice for sustainable new-build and refurbishment projects.

Approved and tested, all products within the FlowSport range come backed by the sales support, technical services and quality that customers have come to expect from Flowcrete. Installed by a network of fully-trained and monitored expert floor installation teams, Flowcrete's FlowSport is the ideal choice for any sporting environment.

TOP tip

Use in conjunction with Isowarm underfloor heating to minimise the cost of keeping your sporting environment warm.

Flowcrete's durable, decorative and high-performance flooring technology is gaining status in a variety of projects across the UK.

FLOWSPORT case study

Belfast Boys' Model School, Northern Ireland.

Product: FlowSport

Flowcrete put a spring in the step of students at Belfast Boys' Model School, providing a champion flooring solution for their fitness suite and sports hall. Over 1,000m² of FlowSport was applied to the sports centre, part of a full new development for the school.

Belfast Boys' Model School is renowned in the area for its sporting finesse and prides itself on being at the forefront of educational innovation. The flooring system in their indoor sports facilities; comprising a double size sports hall and a fully equipped fitness suite, was chosen to reflect their excellence.

The unique cushioned effect of the FlowSport system was perfectly suited to the safety and durability requirements of the school's energetic fitness facilities.

FLOWSPORT SYSTEMS technical zone

The figures provided in the table below are typical properties of our FlowSport systems achieved in controlled laboratory tests that were conducted at 20°C and at 50% Relative Humidity. For full system technical data, please contact your local Flowcrete office or alternatively visit us online.

Finish	Matt
System Thickness	6-9mm
Slip Resistance (BS 7976-2)	Dry >50 low slip potential
Temperature Resistance	Tolerant up to 50°C
Chemical Resistance	Good resistance to tea, coffee, cola, fruit juice, soaps and bleach.
Water Permeability Karsten Test	Nil - (impermeable)
Bond Strength	Inter-coat bond strength >2.0 MPa.
Compression Set	97-99% recovery typical after 72 hours at 50% compression at 20°C.

* The slipperiness of flooring materials can change significantly due to the installation process, after short periods of use, due to inappropriate maintenance or longer-term wear. To meet slip resistance value requirements for wet conditions, textured systems are recommended. Please contact a Technical Advisor at your local Flowcrete office for further details and specifications.

STANDARD SYSTEM colours

CREATIVE freedom

With an almost limitless palette of vibrant colours available, FlowSport offers you the chance to create a truly one-of-a-kind floor finish. Use our specialist colour service to create a unique sporting environment.

The applied colours may differ from the examples shown. For a full colour chart and sample, please contact your local Flowcrete office.
